Education

Vishnu Institute of Technology, Bhimavaram

2025 – 2028

B.Tech in Computer Science & Engineering

CGPA: 9.41

Bapatla Engineering College, Bapatla

2022 – 2025

Diploma in Computer Engineering (CME)

CGPA: 91.67

Relevant Coursework: Data Structures & Algorithms, Probability & Statistics, Linear Algebra, DBMS, Computer Networks

Internship Experience

Backend Developer Intern · Healthletic Lifestyle

Apr 2026 – Jun 2026

3-Month Internship · Backend Development

- Developed and maintained RESTful backend services for a health & lifestyle platform.
- Designed and queried MongoDB databases using MongoDB Shell and Mongoose Compass.
- Built scalable API endpoints using Node.js and Express.js for production use.
- Collaborated on backend architecture decisions and server-side logic implementation.

Projects

Iris Flower Classification · Python, NumPy, Pandas, Scikit-learn, Google Colab

2026

[GitHub Link](#)

- Built a supervised learning classification model on the UCI Iris dataset achieving **100% accuracy**.
- Implemented train-test split (80/20), Random Forest Classifier with 100 estimators and model evaluation.
- Evaluated model using precision, recall, and F1-score metrics across 3 flower species.
- Performed data preprocessing and feature analysis using NumPy and Pandas.

AI Campus Coach · Python, HTML, CSS, OpenAI API, Prompt Engineering

2025

[GitHub Link](#)

- Built an NLP-powered interview practice system that generates 5 domain-specific interview questions.
- Implemented automated scoring algorithms to evaluate responses and identify knowledge gaps.
- Generated personalized step-by-step improvement plans and AI-based model answers using OpenAI API.
- Applied prompt engineering techniques to control question difficulty and feedback quality.

Contact Manager Backend API · Node.js, Express.js, MongoDB, Mongoose, JWT, REST API

2025

[GitHub Link](#)

- Built a secure REST API with user registration, login and JWT-based authentication from scratch.
- Implemented protected routes middleware to ensure users can only access their own contacts.
- Designed full CRUD operations for contact management following REST API best practices.
- Structured project with MVC architecture separating controllers, models, routes and middleware.

Technical Skills

- **Languages:** Python, JavaScript, Java, C
- **ML & Data:** NumPy, Pandas, Scikit-learn, Supervised Learning, Classification, Model Evaluation, Prompt Engineering
- **Frontend:** React.js (Hooks, Components, State), HTML, CSS
- **Backend:** Node.js, Express.js, REST APIs, JWT Authentication
- **Databases:** MongoDB (MongoShell, Mongoose Compass), SQL, DBMS Concepts
- **CS Fundamentals:** Data Structures & Algorithms, OOP, OS, DBMS, CN, SE
- **Tools:** Git, GitHub, VS Code, IntelliJ IDEA, Google Colab, PyCharm, Postman

Open Source & Community

GSSoC 2026 Contributor (GirlScript Summer of Code)

2026

Selected as an open-source contributor – actively contributing to real-world projects under mentorship.

Achievements & Leadership

- **Team Lead, Hack-A-Tron 3.3** (GDG On Campus – 2026): Led team to build GramRide in a 24-hour hackathon.
- **Team Lead, Smart India Hackathon (SIH) Internal Round:** Proposed Civic Issues Reporting & Resolution System.

Coding Profiles

- **LeetCode:** Practicing DSA problems in Java and Python. **GeeksforGeeks:** Solved problems in Java.
- **GitHub:** github.com/Srilakshmi-Bathula – Hosts ML projects, backend APIs and React portfolio.
